# Stay safe this spring and keep clear of electrical hazards

Whether you're working around the yard or playing outdoors with your family, be aware of your surroundings and keep your distance from electrical equipment.

- ✿ Electrical equipment is not a toy. Teach your children not to play on or around green transformer boxes.
- ✿ Always carry ladders and other equipment horizontally to avoid contact with overhead electrical hazards.
- ✿ If you're working outdoors, use extension cords rated for outdoor use and properly rated for the power needs of your tools.
