## Choose the pricing plan that best suits your lifestyle

We know that everyone's lifestyle is different, and with customer choice pricing you have the option to find the pricing plan that best suits the needs of you and your family.

You may be able to save money by choosing from three pricing plans, depending on when and how you use electricity in your home.

### What are my options?

- 1 Time-of-Use:** Time-of-Use divides the day into three pricing periods based on provincial demand. You can better control your electricity costs by saving your heaviest electricity consumption, such as doing laundry or running the dishwasher, for off-peak periods.
- 2 Tiered:** With Tiered Pricing, you can use a certain amount of electricity at one (lower) price. If you exceed that limit, called a threshold, you will be charged a higher rate for the rest of the electricity you consume during that billing period.
- 3 Ultra-Low Overnight:** Customers who use most of their electricity overnight may benefit from switching to the Ultra-Low Overnight rate. Shift workers, customers who charge electric vehicles, and others may take advantage of significantly reduced overnight pricing, while seeing higher pricing during the day.

To compare pricing plans using your own electricity use, visit the Ontario Energy Board's website at [oeb.ca](http://oeb.ca).

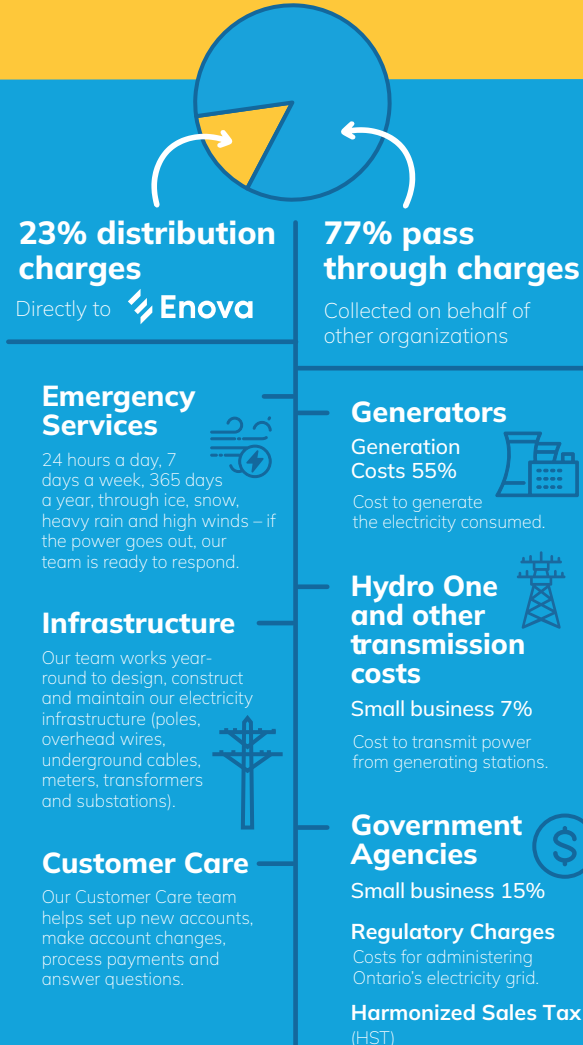

### How can I switch my pricing plan?

Switching your pricing plan is easy. Visit [enovapower.com/customerchoice](http://enovapower.com/customerchoice) and learn how to choose the pricing plan that's right for you.

## Where your payment goes

Approximately 23% of the charges on your electricity bill are paid to Enova. The remaining charges are collected on behalf of other organizations such as generators, transmitters and government agencies.
