For a full explanation of all charges, please visit our website enovapower.com/rates.

*A line loss adjustment factor of 1.0353 is applied to these charges.

** If you have a contract with an electricity retailer, you pay the price agreed to on your contract. Please refer to your contract for information about pricing. Please note that retailer contract prices do not include the global adjustment, which is included in Time-of-Use, Tiered, and ULO prices set by the Ontario Energy Board.

How do I use this rate card?

Transparency is one of our key values, and we want to help you understand how your electricity bill is calculated. You can use this rate card to better understand how we calculate the charges on your bill by applying them to your own consumption. Questions? Reach out at enovapower.com/contactus. We're here to help.

Choose the pricing plan that best suits your lifestyle

We know that everyone's lifestyle is different, and with customer choice pricing you have the option to find the pricing plan that best suits the needs of you and your family.

You may be able to save money by choosing from three pricing plans, depending on when and how you use electricity in your home.

What are my options?

- 1 Time-of-Use:** Time-of-Use divides the day into three pricing periods based on provincial demand. You can control your electricity costs by shifting your usage into off-peak periods and avoiding heavy electricity consumption.
- 2 Tiered:** With Tiered Pricing, you can use a certain amount of electricity at one (lower) price. If you exceed that limit, called a threshold, you will be charged a higher rate for the rest of the electricity you consume during that billing period.
- 3 Ultra-Low Overnight:** Customers who use most of their electricity overnight may benefit from switching to the Ultra-Low Overnight rate. Shift workers, customers who charge electric vehicles, and others may take advantage of significantly reduced overnight pricing, while seeing higher pricing during the day.

To compare pricing plans using your own electricity use, visit the Ontario Energy Board's website at oeb.ca.

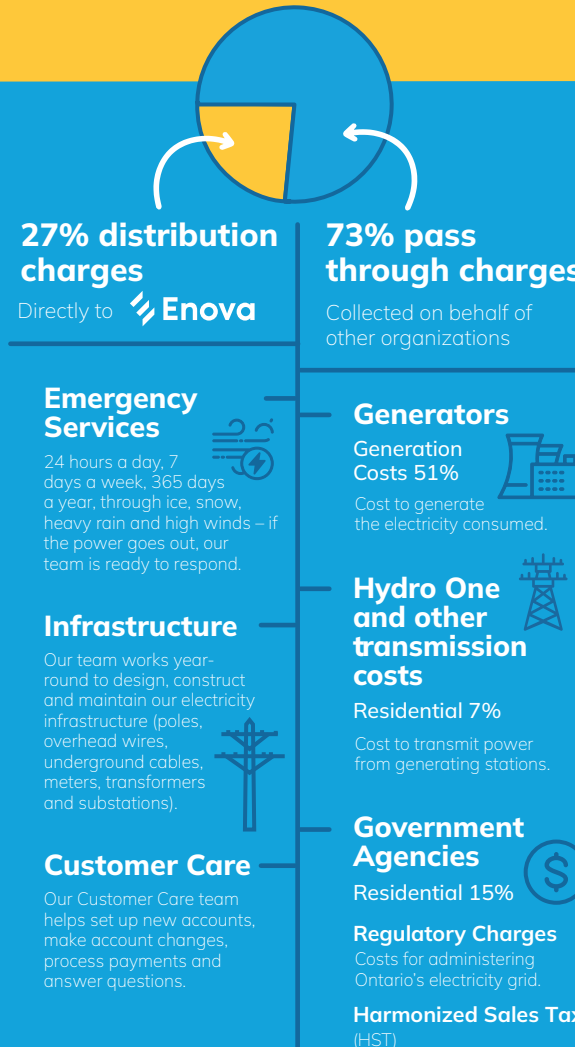

How can I switch my pricing plan?

Switching your pricing plan is easy. Visit enovapower.com/customerchoice and learn how to choose the pricing plan that's right for you.

Where your payment goes

Approximately 27% of the charges on your electricity bill are paid to Enova. The remaining charges are collected on behalf of other organizations such as generators, transmitters and government agencies.

Note: Percentages may not total 100 due to rounding.

Help keep your costs as low as possible

Enova understands the importance of keeping costs low. We strive to keep the portion of the bill we control as low as possible. To help with this, there are tools available to our customers:

eBilling

Switching from paper bills to eBilling saves more than \$12 per year per customer, which helps keep our distribution charges down. Make the switch today at enovapower.com/eBilling, and enjoy the peace of mind and convenience that eBilling provides.

Pre-Authorized Payment Plan

Missed payments and overdue accounts lead to additional administrative costs. Customers who register for Pre-Authorized Payments never have to worry about missing a bill. Your amount owing is automatically withdrawn from your account on the day your payment is due. Find out more at enovapower.com/paymentoptions.

My Account

Help lower your costs by better understanding how and when you're using electricity. With My Account, you can track your daily, weekly, monthly and historical consumption to learn when you're using the most electricity. Shift your usage based on your pricing plan and you could save. Register today at enovapower.com/myaccount.
