Legal Name: _____

Contact Name: _____

Mailing Address: _____

Primary Phone: _____

City/Twp: _____

Fax Number: _____

Province: _____ PC: _____

Email: _____

5. Connection to the Distributor's distribution system

Transformer Station Name: _____ T.S. Feeder: _____ Connection
Voltage (kV): _____

Distribution Station Name: _____ D.S. Feeder: _____ Connection
Voltage (kV): _____

1. Provide a **site plan** showing the location of Customer's facilities, existing connection assets, proposed new lines for connection to the Distributor's distribution system, with the POC and PCC clearly identified:

Drawing Name and Number: _____ Rev. No: _____ Date: _____

2. Provide a **single line diagram** of the Customer's facilities:

Drawing Name and Number: _____ Rev. No: _____ Date: _____

Notes:

It is important that the Customer provide all of the information requested above. Failure to do so could result in the non-acceptance of this application form by Enova Power Corp. (the "**Distributor**").

A CCA must be signed within six (6) months from the date of the CIA. Failure to sign a CCA or to provide the required security deposit within the prescribed time period will result in the removal of capacity allocated for the project and the generator will be required to re-apply for a CIA.

If any information has changed from the original applications submitted for the CIA, please re-submit the CIA application form with the changes highlighted in yellow. Any changes could trigger the need for another CIA and/or CCE. If the CIA and/or CCE needs to be redone or revised, it will be at the Generator's expense and could delay the connection process.
